PROFILE

Final-year Economics student at the University of Beira Interior. Since September 2026 I have been interning part-time at a consultancy in Leiria that prepares funding applications for small companies. There I build the financial models, check whether each company meets the eligibility rules and write parts of the applications. I work mostly with Excel, Power BI, R and Python. Scouting and volunteering taught me to work in a team and to be someone people can count on.

PROFESSIONAL EXPERIENCE

Funding Applications Intern (Part-time)

Zeferino Consultores | Leiria, Portugal | Sep 2026 – Present

Consultancy in Leiria that prepares public funding applications for small and medium-sized companies.

- Worked on **4 Portugal 2030 applications** (SICE and PITD – Compete 2030) for restaurant and tourism projects worth **over €3M** in total.
- Built the Excel financial models for **3 of these projects**: sales forecasts, running costs, cash flow, Net Present Value (NPV), Internal Rate of Return (IRR) and payback.
- Went through clients' balance sheets and income statements (SNC and NC-ME) to confirm they met rules such as financial autonomy and the minimum share of own funds.
- Wrote parts of the applications, like the company profile, market analysis, operating plan and targets, following what each call scores.
- Filled in the investment and eligible-cost tables on the official forms.

Front Desk Assistant (Summer Job)

Escola de Condução Bagagem | Batalha, Portugal | 2024

- Took care of student registrations, lesson schedules and exam bookings.
- Was the first person clients spoke to, at the desk or on the phone, explaining licence types, prices and what each step involved.
- Handled payments and kept student records up to date.

EDUCATION

Bachelor's Degree in Economics

University of Beira Interior | Covilhã, Portugal | Final-year student

- Courses include Econometrics, Microeconomics, Macroeconomics, Financial Accounting and Statistics.

SKILLS

Financial analysis: financial projections, cash flow, Net Present Value (NPV), Internal Rate of Return (IRR), payback period, financial statement analysis (SNC, NC-ME)
Data and tools: Microsoft Excel (advanced), Power BI, R (econometrics and data processing), Python and C (basics), GitHub Pages
Research and writing: economic research, technical report writing, formal institutional writing in Portuguese, business English
Personal: teamwork, organisation, responsibility, problem solving, working to deadlines

PROJECTS

Market Power and Pricing Dynamics in a Digital Marketplace | 2026

- Research report on market power on a digital platform: how prices are set and how supply, demand and shocks move them.
- Gathered historical price data and analysed it in R to measure volatility and the effect of changes in market structure.

Personal Portfolio Website | 2026

- My own site on GitHub Pages, with my profile, CV and projects (yusa172.github.io).

LANGUAGES

Portuguese: Native
English: Upper-intermediate (B2), C1 certification in progress

INTERESTS

Financial markets: I keep up with the markets and economic news.
Economics and politics: mostly economic policy, which I read about and discuss in English.
Technology and AI: I like trying new tools that save time on analysis and writing.
Entrepreneurship and innovation: how small companies grow and pay for new investment.
Scouting and volunteering: group activities where everyone has a job to do.
